

P100 topics - Name _____

Please provide me with an ordered list of your top five presentation topic choices (where 1 is the topic you would most prefer to present).

1. The discovery of neutrino oscillations
2. The making of nuclear bombs
3. The potential for controlled nuclear fusion as a source of energy
4. Microscopy
5. Astronomical observatories/telescopes
6. Global Positioning System
7. Quantum computers/computation
8. Particle accelerators
9. The discovery of the charmed quark
10. The discovery of the top quark
11. Bose-Einstein condensates
12. The search for gravity waves
13. Lasers
14. String theory
15. Supersymmetry
16. Nuclear power – how it works and pros and cons
17. Solar system formation
18. The search for extra-terrestrial life
19. Radioactive dating techniques
20. The history of the study of the cosmic microwave background
21. Nuclear terrorism
22. Superconductivity
23. Radiation: dangers and uses
24. Life and scientific contributions of a great physicist (such as Newton, Einstein, Plank, Bohr, Feynman, Galileo, Hubbell, Schrodinger, etc.)
25. The case for comets/asteroids causing massive extinctions on earth
26. Music
