

Name (print) _____

P142 Presentation topics

1. particle detectors
2. superconductivity
3. particle accelerators
4. pacemakers
5. animals and electromagnetism
6. electric musical instruments
7. lasers
8. motors
9. generators
10. power grids
11. anti-shoplifting devices
12. information storage devices
13. transistor
14. household appliances
15. gamma rays
16. wireless communication devices
17. batteries
18. Video cameras and/or displays
19. electromagnetism in chemistry or medicine
20. Moore's law
21. railguns
22. relativity and electromagnetism
23. physics of the light saber
24. electromagnetism and the body

additional constraints:

Return to me by end of next Tuesday's lecture with rank ordering indication of top five topic preferences for you (1 being most desired).
